Instructions to Authors

Authors to submit their manuscript on the journal website only.

Minimum Standards for Online Submissions
Prepare your Manuscripts for Online submission as indicated below. These standards are necessary for peer-reviewing.

- Submitted papers should be in English Language
- Manuscript should be submitted as a MS word Document
- Manuscript should be prepared as per journal guidelines
- All papers are subjected to scientific peer review.
- All papers must be submitted online after registering as author

Standards for submission

I Covering Letter
Should contain

- Name, Address, Email id, Mobile No. of the Author for Correspondence.
- The letter should mention in brief what is already known about this subject and what new has added by the submitted work.
- Title of the paper.
- Authors’ initials and names
- An abstract (not exceeding 10 lines) which should be most informative, giving clear indications of the nature and range of the results contained in the paper, and should not duplicate the conclusions.
- 3 to 4 keywords

II Length
Restrict to provide us word document of maximum 10-12 pages.

III Abbreviations
Abbreviations to be defined where they first appear in the text.

IV Nomenclature
Please follow the correct and accepted Nomenclature

V Preparation of Manuscript
The Manuscripts should follow the IMRAD format (Introduction- Method- Results and Discussion). For more information, please read (https://en.wikipedia.org/wiki/IMRAD).

All original research articles should be structured in the following manner.

1. Title
   The title should be concise and reflect the entire work of the submitted manuscript.

2. Affiliation
   Below the title, all author names should be mentioned along with Affiliation of each author.

   1. Affiliation details should include-
2. Each author’s affiliation should be identified by a superscript small numeral.
3. Author for correspondence should be indicated by an asterisk.
4. Provide full address including e-mail, fax, and telephone number of Author for correspondence.

3. Abstract
Abstracts need not be in structured format. However, it should clearly state

- The purpose of the work
- Methods used
- Key findings and major conclusion drawn from the work in no more than 500 words
- Use of abbreviations in abstract should be avoided however if essential should be expanded at its first appearance

4. Keywords
The author should provide 3 to 6 keywords, characterizing the scope of the paper, Keywords should be written in title case and separated by comma. Avoid general and plural terms and multiple concepts (avoid, for example, ‘and’, ‘of’).

5. Equations: In equation editor only

6. Headings
Authors to number the headings in Arabic Style Eg: 1, 2…. 

- Headings should be in title case, meaning that all words except for prepositions, articles, and conjunctions should be capitalized.
- All botanical names should be in italics.

For example: 1. Finite Element Modelling (FEM)

1.1 Model Description

7. Introduction
State the background and mention clearly the objective of the present work.

8. Materials and Methods
All methods used should be clearly mentioned. This will allow other researchers to reproduce your work. Wherever required, give correct formula used for calculation and results

9. Results
Results obtained in the study should be subjected to appropriate statistical methods and presented clearly. The findings should never be discussed in this section.
10. Discussion
It should have rationale and be of relevance to the present study along with the existing literature. Discuss the lacuna in the area and to how much extent the present study has answered the research question and provide directions for further research. Please avoid repeating the Results of your studies under this section.

11. Conclusion
Give the major conclusion from the present study. This section may stand alone or be clubbed together with discussion.

12. Acknowledgements
Acknowledge those persons who helped you in the present study by providing facilities, personal assistance and funding if any.

13. Footnotes
Footnotes are not permitted. If the manuscript contains footnotes, move them into the text and references as per the content.

14. References
Power Research – Journal of CPRI follows the Vancouver style of referencing.

a. In the Referencing
- References within the text of the article should be represented by numbers and should be superscripted.
- The number originally assigned to a reference should be re-used if that reference is cited again later in the text.
- In case of multiple references, separate the numbers with a hyphen. E.g. 2-5, or commas in case of non-inclusive numbers E.g. 3, 9, 14.
- As a general rule, reference numbers should be placed outside of full-stops and commas, and inside of colons and semicolons.

b. Reference List
- References which are cited in the text should be mentioned here.
- It should appear at the end of your text.
- It should be arranged numerically by citation number.

c. Referencing journal articles
- Elements of the Citation: Author(s) – Family name and initials. Title of article. Title of journal – abbreviated. Publication year, month, day (month & day only if available); volume(issue):pages

d. Referencing Books
- Elements of the Citation: Author(s) – Family name and initials, Multiple authors separated by a comma. Title of book. Place of Publication: Publisher Name; Year of Publication.

f. Tables
- Tables should be numbered consecutively in accordance with their appearance in the text.
- They should be embedded in appropriate locations as per the text along with the captions.
- Place Legends for tables below the table body and indicate them with lowercase letters in superscript.
- Avoid vertical rules and ensure that the data presented in tables do not duplicate results described elsewhere in the article.
- Please note that tables embedded as Excel files within the manuscript are NOT accepted.
- Tables in Excel should be copied and pasted into the manuscript Word file.

g. Figures
- These must be numbered and cited in the text.
- Mark clearly in the margin of the manuscript where the figure is to be inserted and do not embed in the text.
- Tables should be numbered consecutively in accordance with their appearance in the text.
- All figures should be in TIFF.
- Images provided should be with below mentioned resolutions:

<table>
<thead>
<tr>
<th>Image Type</th>
<th>Resolution</th>
</tr>
</thead>
<tbody>
<tr>
<td>Black &amp; White Images</td>
<td>900 dpi</td>
</tr>
<tr>
<td>Coloured Images</td>
<td>600 dpi</td>
</tr>
<tr>
<td>Line art-grey colour</td>
<td>600 dpi</td>
</tr>
</tbody>
</table>

- Photo resolution should be minimum 300 dpi.
- Histograms should be presented in a simple, two-dimensional format, with no background grid.
- Supply figure captions separately and not attached to the figure.
- The legends should be provided along with the figures.
